

Story 6

Katherine is a sweet lady who left her abuser with the clothes on her back. Her and her three children found a rental home but need additional support. A friend of A Stepping Stone's gave her our number. We have been able to assist her and her children with financial rent assistance, clothing, furniture, hygiene products. We also stood by her side to provide a laptop so she could begin GED online courses. We worked with another non profit that was able to help her fix a few things in the home that needed repair. Further, we worked hard with her to write a proper resume. We were also able to provide her with a donated vehicle. With our resources and her hard work, she is now independent, working a full time job, and giving stability to her children.
